

SUST-TRANSFER PROJECT

Berner
Fachhochschule

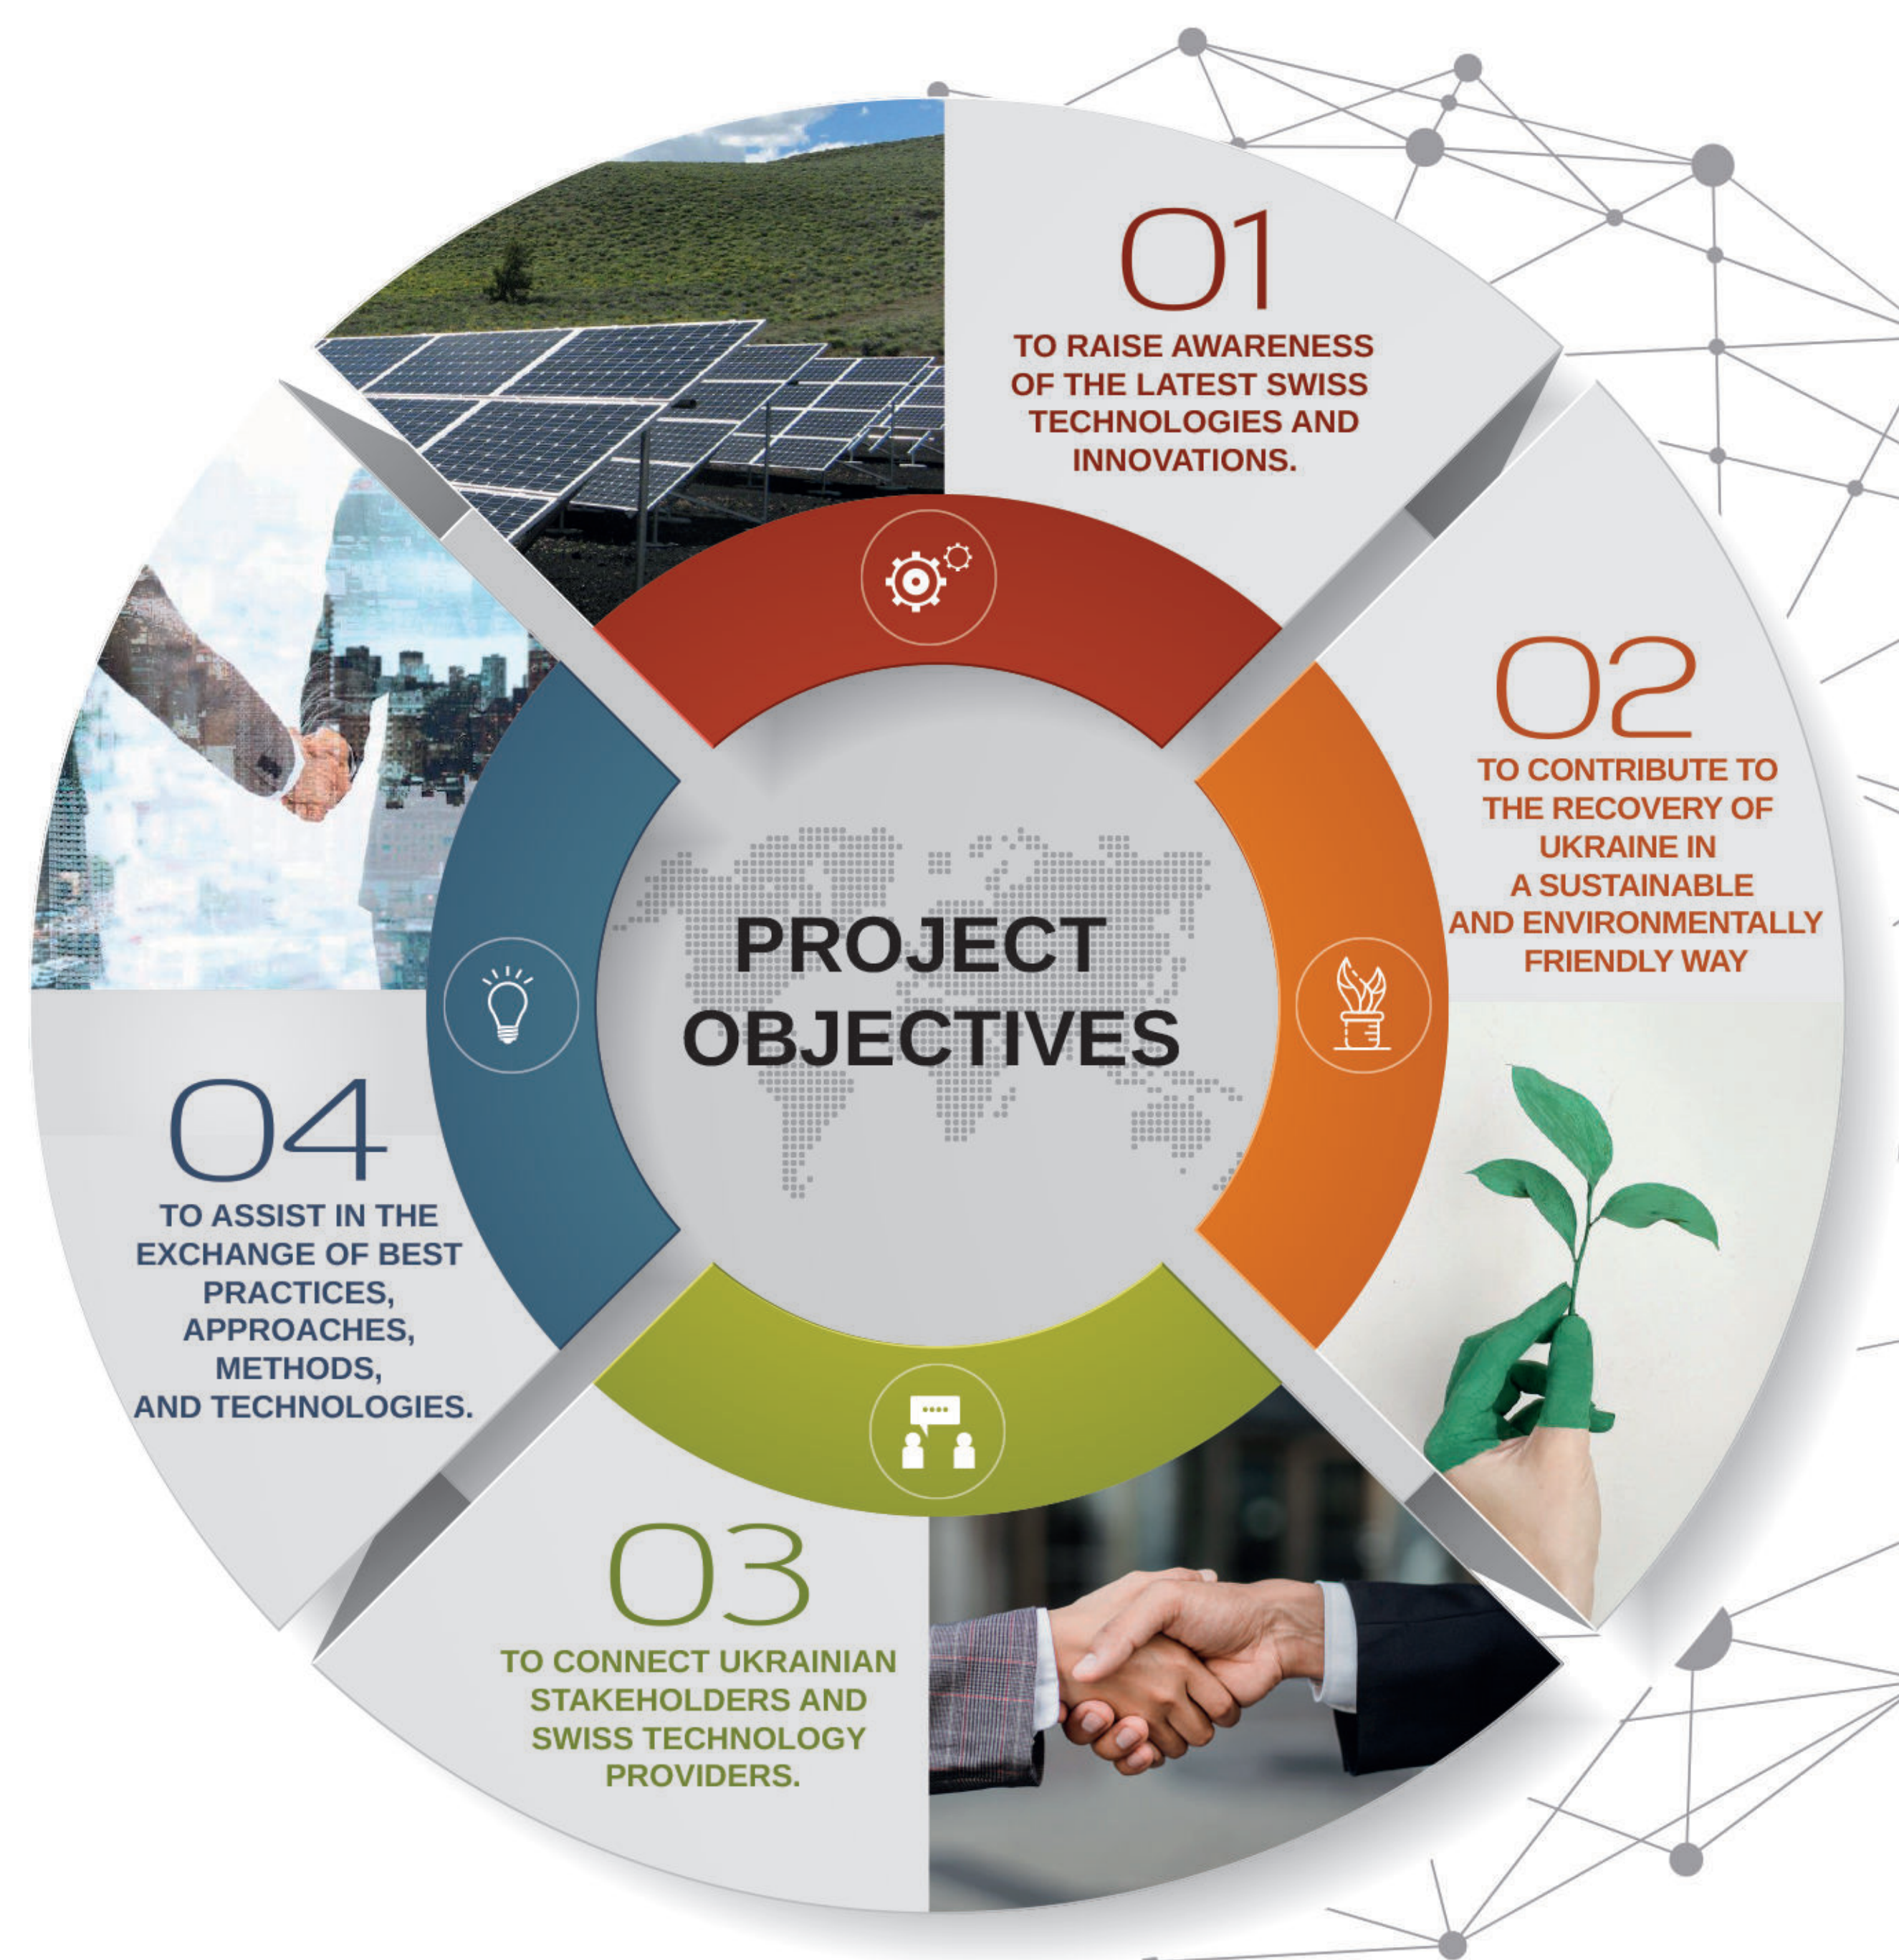

SUST-TRANSFER is Swiss Ukraine Sustainable Technology Transfer project. It is an information product that presents Swiss state-of-the-art technologies, approaches, and methods that can be used in Ukraine's recovery.

WHY SUST-TRANSFER: The SUST-Transfer project helps to understand Swiss technologies which are relevant to support and rebuild Ukraine, as Switzerland is one of the leading countries in the world in terms of sustainable development, innovation, and technology that Ukraine needs.

THE SUST-TRANSFER CONTRIBUTES TO:

1. Integrate the latest technologies into the reconstruction of Ukraine.
2. Build strong international relations.
3. Strengthen economic ties.
4. Improve the living standards of the Ukrainian society.
5. Maintain global stability and security.
6. Stimulate the development of innovations and technological discoveries in Ukraine.
7. Raise public awareness of the need for sustainable development and ecological lifestyle.

KEY STAKEHOLDERS:

- Government organizations and local authorities in Ukraine and Switzerland.
- Organizers of international economic platforms, business forums, etc.
- Swiss companies whose technologies are under consideration.
- Representatives of donors (foundations, grantors, IFIs, etc.).
- Representatives of the business community.
- Embassy of Ukraine in Switzerland.
- Embassy of Switzerland in Ukraine.
- Research institutions in Switzerland.
- Business associations.
