# JOIN OUR GRADUATE PROGRAM

## Build a successful future in engineering

## Graduate Application Q & A

### WHY ZENITH TECHNOLOGIES?

Zenith Technologies, a Cognizant Company offers a variety of graduate engineering careers for those who want to make a difference in the world of Life Sciences. We partner with our customers to deliver cutting edge Automation, MES and Digital Manufacturing solutions to Life Sciences.

Working globally across 16 offices we have over 1000 engineers and are growing significantly year on year. At Zenith we have strong values and put the patient at the centre of everything we do.

### WHAT TYPE OF GRADUATES ARE WE LOOKING FOR?

We are currently seeking applications from Graduate Engineers who have an interest in working in the Life Science industry (we will also consider applications from other disciplines). Our headquarters are in Cork Ireland, but there are graduate opportunities across Europe, USA and Asia.

Zenith Technologies are especially interested in receiving applications from students who have studied in the following areas:

- Process and Chemical Engineering
- Chemical and Biopharma / Biotech Engineering
- Chemical Sciences with Medicinal Chemistry
- Biological & Chemical Sciences
- Applied Physics and Instrumentation
- Instrumentation Engineering
- Electronic & Electrical Engineering
- Automation and Process Control
- Computer Systems Engineering / Software Engineering
- Process Plant & Technology
- Business Information Systems / Information Technology
- Other disciplines to support the business

### WHAT WILL I GAIN FROM A CAREER WITH ZENITH?

- Experience in a range of technologies including: SCADA, DCS, PLC, Instrumentation, DeltaV, Machine Vision and MES
- Experience with the following software vendors: Emerson Process Management / Siemens / GE / Wonderware / ABB / Allen Bradley / Rockwell Automation / Werum / OSI Soft / AspenTech
- Experience working with top Life Science companies and engineers
- An initial 12 week intensive Graduate Programme
- Excellent salary & benefits
- Continuous training and mentoring
- Career development opportunities
- Experience in exciting and challenging projects
- Global career opportunities

### HOW DO I APPLY?

To be considered for our graduate training program contact:

Bernadette Coleman, Senior HR Business Partner - Europe  
Zenith Technologies Head Office,  
Unit 4, Portgate Business Park, Raffeem, Monkstown, Co. Cork,  
T12 RP29, Ireland

DDI: +353 (0) 21 4370332
